Polatrak Deep C Meter™ 300 AD

General

The Polatrak Deep-C-Meter 300 AD is designed for service on an inspection class ROV. The unit is ROV powered and provides continuous visual and digital output. Rated for operation in up to 1,000 feet (300 m) depth, this system can be used for any inspection. The instrument readout unit can be conveniently mounted anywhere on the ROV, and the probe unit is held in the tee-handle manipulator mount. The Deep C Meter 300 AD kit includes an ROV II probe, an adjustable mount, standard whips and all standard replacement parts.
