

DEEPWATER

SIX CP RETROFITS OF SHALLOW-WATER STRUCTURES: BAY MARCHAND, LOUISIANA

61 total RetroLinks™ installed on six shallow-water structures near Louisiana.

RetroLinks™ were used to economically extend the lives of six shallow-water structures in the Bay Marchand area of the Gulf of Mexico. The assets are cathodically protected for at least another five years.

More info at www.stoprust.com

BAY MARCHAND AREA

The structures are located in shallow water in the Gulf of Mexico off the southeast coast of Louisiana.

NEW LEASE ON LIFE

RetroLinks™ will provide an inexpensive five-year CP life extension.

WHERE THE MAGIC HAPPENS

RetroLinks™ are electrically attached to the structure through the supports.

ATTACHING THE LINKS

Workers are welding supports for the RetroLinks™ to hang from. Bolt-on supports are also available.

ANODES APLENTY

Six structures required installation of 61 RetroLinks™.
